

# International & Regional Wealth Managers – improving their digital platform & capabilities

3.00pm

International and Regional Wealth Managers – Improving their Digital Platform and Capabilities

- What are the digital investments they are making today?
- How will they embrace the growth of wealth in local markets?
- How does this conflict with or complement their traditional International business?
- How must they position themselves today to succeed?
- How can firms best address their cost / income problems leveraging digital and technology?
- What's the role of tech vendors and partners?
- How are they developing the investment and advisory proposition?
- Are the necessary tactical reactions to the Covid-19 challenges compromising long term strategic decisions?
- How do you improve execution capabilities?
- Building vs buying software solutions across the Banking Industry – what are the trends?
- Do banks need to shift towards digital delivery models – how will this occur?
