

Residency and Citizenship – what are the best options in the post pandemic world?

3.00pm

Residency and Citizenship – what are the best options in the post pandemic world?

- What global mobility and investment migration trends have you seen emerging since the pandemic hit in early 2020?
- What is the outlook ahead?
- Where is the demand emanating from these days, and how does that compare with historical trends?
- Is the demand more for residence or for citizenship, and why?
- Has Singapore become much more appealing, and why?
- Within Asia Pacific, which countries are the source of the greatest and growing demand and why?
- Globally, which countries and which programmes are most in demand, and why?
- Within Asia Pacific, which countries are most in demand and why?
- What levels of demand are there from outside APAC for relocation to and/or residence within Asia Pacific?
- How does the wealth management industry work with the investment migration industry, and what are the commercial or other advantages of doing so?
- What are the associated trends taking place in the wealth management industry, for example, global diversification of HNW/UHNW assets, estate and legacy planning and advice, and so forth?
- How do you abandon a residency? In many instances it is not as simple as simply leaving a country or returning passports/PR cards/visas.
- How does Residency tie-in to recent discussion on a global minimum tax rate?
- How do you get Comprehensive planning prior to relocation right?
